

Wolkenstürmer

Your kite specialist

1981 Hansastraße central Hamburg, family Lienau opened a toy store with a very special basement, a kite shop called "Wolkenstürmer". As one of the first kite shops in Germany, the "small kite shop" has been established for 30 years as a leading developer and wholesaler in the Kite Sport, focused on quality and continuous development.

1981

At the beginning we imported and sold world-famous kites (for example Peter Powell , Go fly a kite, catch the wind) in our store in Hamburg. By the way we organized kite workshops for kids with traditional materials like wood and parchment paper.

1983

We discovered places for kite festivals on the North and Baltic Sea coast very early. We organized our first events for example in Sylt, Timmendorf.

1987

Since the beginning of the International Toy Fair in Nürnberg you can find us there. Initially we started in cooperation with a partner but since 1987 we present our own products for you.

1988

We are developing new products with materials like spinnaker nylon, glass and carbon fiberglass. With the help of Wolfgang Schimmelpfennig we developed a new power kite – the Paraflex has been born. This kite is still one of our most popular products.

1990

"Pictures for the Sky" - World Famous artists design kites. For this purpose, we engaged the best kite flyers for a workshop in Hamburg.

1999

The beginning of Wolkenstürmer Kites & Coffee – After relocation of our office to Hamburg Eimsbüttel you have the opportunity to drink a coffee or have a talk in our new shop.

2003

Since this year our kites can be printed individually with your own logo and color design. The design of the products has no limits. We produce your advertising product.

2009

Wolkenstürmer & Spiderkites - The cooperation of the manufacturer Wolkenstürmer kite and kite developer Christoph Fokken guarantees the best quality on the market because the kite expert is now personally responsible for the development and quality assurance of Wolkenstürmer.

2012

Our shop is increased from 36 to 200m². In addition to our complete assortment you can also buy buggies and boards.

We also obtained our large warehouse near Hamburg airport. Now we can deliver your order even faster.

2015

Opening of the second retail store in Norden-Norddeich, North Sea.
